Black Powder Coated Steel shown on Chevrolet Impala

Skid Plates

Features of Skid Plates

- **Custom Fit** - designed to specifically fit the undercarriage of your vehicle, adding an additional layer of coverage for otherwise exposed areas
- **No Holes Drilled Installation** - utilizes existing OEM bolt holes for quick installations and less down time
- **Durable Construction**
 - Steel Skid Plates**
 - 11 gauge steel
 - black powder coat finish - protects skid plate from salt spray, corrosion, and environmental conditions
 - ABS Skid Plates**
 - durable yet flexible material
 - unaffected by salt spray, corrosion, and environmental conditions
 - resistant to extreme hot and severe cold
- **Access holes** - allow you to perform routine maintenance on the vehicle as usual without removing skid plate

Access slots in each skid plate allow you to perform regular oil changes as usual without needing to remove the skid plate
