## Prisoner Transport Partitions

### Features of Prisoner Transport Partitions

#### Solid Construction

- Smooth, charcoal grey powder coated steel panels are easy to clean, resist corrosion
- Padded, 1-5/8" roll bar
- 14 gauge thickness withstands violent assaults

#### Side Curtain Airbag Compatibility

Choose from three options:

- Airbag Compatible, Filler Panels that flex under the force of airbag deployment
- AOI Airbag On/off Control Switch kits that allow departments the ability to turn airbags on or off, used in conjunction with Hard Wing Filler Panels
- Standard Partitions for vehicles with no side curtain airbag compatibility issues, used in conjunction with Hard Wing Filler Panels

#### Window Options

- Choose from up to 10 different window configurations to meet your prisoner transport needs
- Center slide windows feature an ergonomic latch to aid in easy window operation
- 1/4" thick polycarbonate window panes
- Anodized aluminum window frames are easy to clean and resist corrosion

#### Transferability

- Patented partition is designed to allow for transferring from one vehicle to another with simple hardware and bracket changes
- Sedan partitions may be moved from any current or upcoming police package sedan into another with a transfer kit
- SUV partitions may be moved from any current or upcoming police package SUV into another with a transfer kit

#### Polycarbonate Filler Panels

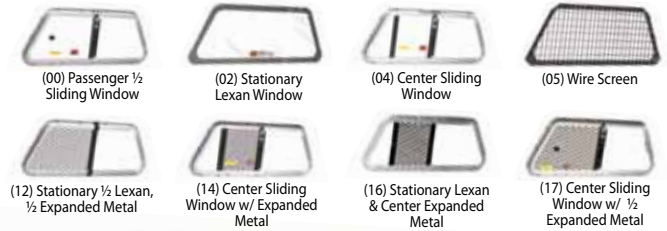

- Restrict prisoner access to spaces between partitions and B-pillars
- Flexible Filler Panels work with sidecurtain airbags to flex under the force of the airbag deployment
- Hard Wing Filler Panels work with vehicles that either do not have sidecurtain airbags or have the sidecurtain airbags shut off

Choose from three styles of side curtain airbag compatibility options to match your departments needs
