X Push Bumper

Features of X Push Bumper

- **Custom Fit** - designed to fit around the contours and shape of various makes of police package vehicles
- **6061 T6 aluminum construction**
 - lightweight features of aluminum yet highly durable and impact resistant
 - excellent corrosion resistance to environmental conditions and salt spray
 - impact panel is stamped from a continuous sheet of metal to reinforce bumper strength against bending and flexing into the vehicle which, can lead to scuffs and scratches
- **Black powder coated finish** - adds a layer of protection against salt spray and other environmental conditions
- **Mounts to vehicle frame utilizing existing OEM holes and slots**
 - requires no additional holes drilled or trim cut for an simpler installation
 - allows you to push disabled vehicles to safety without harming police vehicle
 - keeps bumper in balance with vehicle, allowing PIT (precision immobilization technique) maneuvers to be performed without damage to police vehicle
- **Oversized design**
 - reduces damage to vehicle body from front area animal strikes
 - provides additional layer of protection to vital engine and cooling components from obstacles in the vehicle's path

Impact panel is stamped from a continuous sheet of metal preventing bumper from flexing into vehicle
